Introduction

This accessory kit has been designed to easily convert a Smiths Space Saver from unit switching to remote switching providing normal, boost and off selection.

The accessory kit comes supplied with easy fit connectors and a 3m length of power cord.

Note: this remote control switch must only be used for operating one Space Saver unit.

Warning

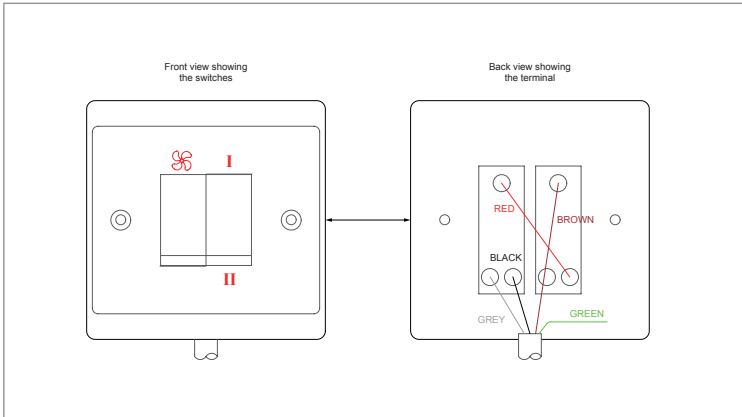

Isolate the power supply to the Space Saver unit. Do not reconnect the power supply until the installation has been completed.

ALL ELECTRICAL INSTALLATIONS CONNECTIONS MUST COMPLY WITH BS7671, 1992 AND THE IEE REGULATIONS. CHECK THE VOLTAGE ON THE HEATER IS CORRECT FOR YOUR SUPPLY. IF IN DOUBT, CONSULT A QUALIFIED ELECTRICIAN.

This Product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the product by a person responsible for their safety. Children should be supervised to ensure that they do not play with the product.

Control Switch

1. Locate a suitable position adjacent to the Space Saver unit that will allow connection to the 3 metre power cord (supplied). Note: This must be away from water or high humidity.
2. Fix the switch mounting box to suit the required type of installation. Connect the power cord to the remote switch as shown below. Note access may be required to the fan convector by removing the lower cupboard shelf directly above heater.
3. Run the power cord via the prepared route to the Space Saver unit.

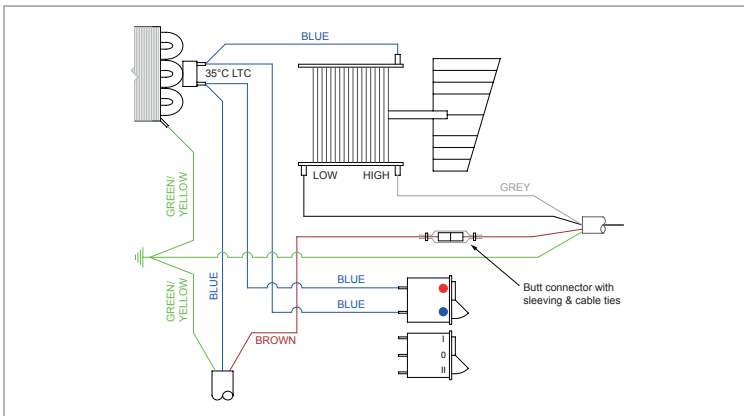

Space Saver

Important: If the Space Saver unit is already installed please disconnect or isolate from the electrical supply.

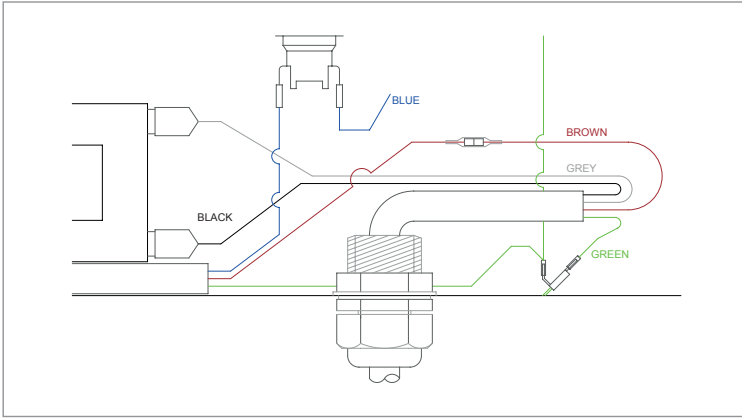

1. Remove the lid fixing screws and remove the lid of the Space Saver unit
2. Push the power cord complete with cable gland from the control switch into the Space Saver chassis in the hole provided adjacent to the earth terminal (see diagram). Ensure there is approx 100mm of cable entering the unit, fit and tighten the locking nut and tighten the outer nut on the cable gland to securely fasten the power cord.

3. Remove and discard both the red and yellow wires between the lower (fan speed) switch and the fan.
4. Disconnect the brown wire from the lower (fan speed) and slide the sleeving onto the wire. Connect the 2 brown wires together and slide the sleeving over the joint, carefully fit a cable tie to each end of the sleeving to secure.
5. Fit the grey wire to the top right hand side motor terminal and fit the black wire to the top left hand side motor terminal. See diagram below.

6. Next remove the earth wire (yellow / green) from the chassis tab, fit the earth wire to connector on the incoming lead and securely fix back into place on the chassis earth tab. See diagram below.

7. Ensure wires are not snagged, refit lid, refit the screws and tighten.
8. Fit the Space saver unit back into place and reinstate the electrical supply.

Operation

1. Fitting a remote control switch makes the integral fan speed control switch inoperative.
2. The Summer/Winter switch operation (top switch) remains active and should be used to select the desired mode.
3. Set the remote control switch to either or and the left hand Red / Blue dot switch the red (on).
4. Providing the central heating system is switched on and there is hot water within the system the fan will run.

Registering your product

Thank you for purchasing a Smith's product. It has been designed and manufactured to the highest quality standards to ensure it gives you efficient and trouble-free service for many years. We are committed to achieving the highest standards and our faith is supported by a free parts and labour guarantee with every product.

For more information on the warranty period for this product please visit our website smithsep.co.uk/product-registration/

This gives you the peace of mind that in the unlikely event of product failure, we will repair or replace the product completely free of charge providing the product has been installed, used and maintained in accordance with the instructions. Your statutory rights are not affected by this warranty.

It is important to register as soon as possible online at: smithsep.co.uk/product-registration/. This will ensure you will receive prompt and efficient service if your product requires attention within the warranty period. If you do not register your product, you will be required to produce proof of purchase prior to receiving service.

Disposal

As part of the policy of continuous product improvement, Smith's Environmental Products LTD reserves the right to alter specification without prior notice.

Products with this symbol (crossed out wheellie bin) cannot be disposed as household waste. Old electrical and electronic equipment must be recycled at a facility capable of handling these products and their waste by-products. If you are purchasing replacement equipment your retailer may offer a 'take back' scheme, or will be able to give details of the nearest approved authorised treatment facility. Proper recycling and waste disposal will help conserve resources whilst preventing detrimental effects on our health and the environment.
