

Products with this symbol (crossed out wheeled bin) cannot be disposed as household waste. Old electrical and electronic equipment must be recycled at a facility capable of handling these products and their waste by-products. If you are purchasing replacement equipment your retailer may offer a 'take back' scheme, or will be able to give details of the nearest approved authorised treatment facility. Proper recycling and waste disposal will help conserve resources whilst preventing detrimental effects on our health and the environment.

WEEE Registered Code: WEE/ED0093VW

Space Saver

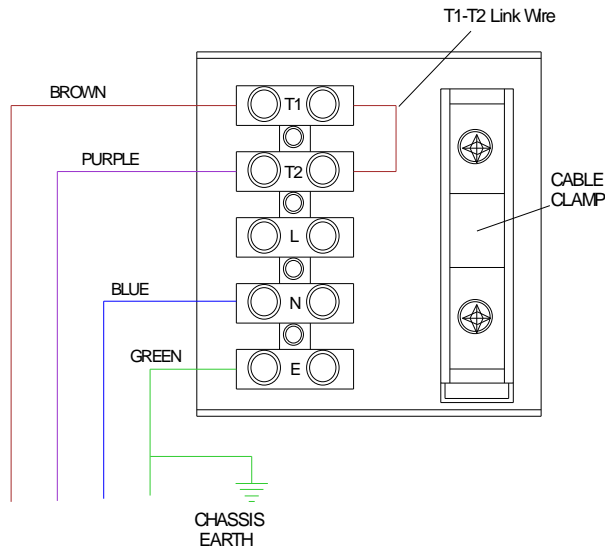

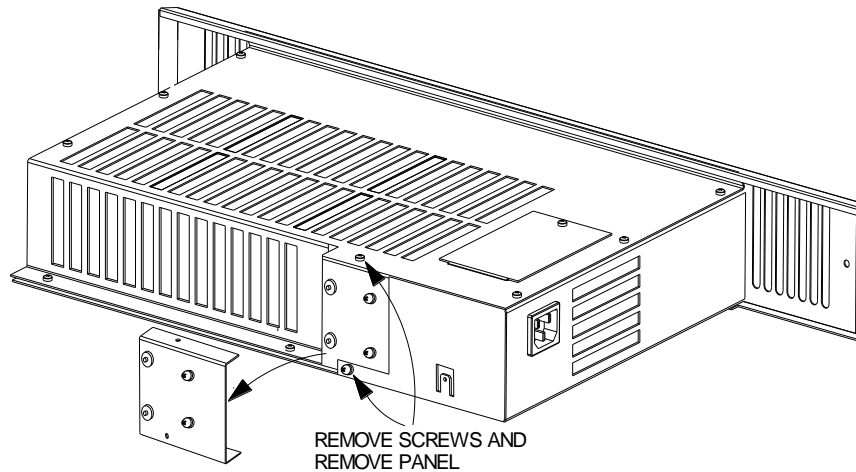

SS80E

Installation and User Guide

Thermostat Wiring:

1. To link a room thermostat remove the electrical panel on the back of the unit by removing the 2 fixing screws (See below diagram)

2. Remove T1 – T2 link wire (See above diagram) and connect room thermostat (not supplied) following the manufacturer's instructions.

SS 80 mm

The following items should be included in the carton:

- ❖ Product complete with stainless steel grille and plug and play lead.
- ❖ Fixing screws (2).

Space Saver is primarily intended for installation in the space beneath kitchen cupboards behind the plinth. However it can also be installed in similar applications such as stair risers and other built-in furniture.

This Space Saver model must not be installed in a bathroom or other high humidity area. Please contact us on 01245 324560 for details of products suitable for these applications.

Space Saver is classified as a fixed appliance and electrical connection should be via a double pole 10A fused spur. The fused spur must not be directly above the heater but should be accessible after

If the mains cable is damaged, it must be replaced by either the manufacturer, its service agent or similarly qualified persons. The appliance must be earthed.

To avoid the possibility of vibration, this product must be installed on a flat, even surface.

To conform with Building Regulations Part L (Part J in Scotland), a remote room thermostat (Smith's Part No. 08-0826) can be used in conjunction with this Space Saver fan convector.

Please note the guarantee may be invalidated if this product is not installed and used in accordance with

Installation Guide

1. We recommend the use of a kneepad when installing this product. Cut the opening in the plinth using method 1, 2 or 3 (Method 1 represents installation into an 80mm plinth).

Model	Width A	Width B
SS 80E	400 mm	74 mm

2. Isolate the electrical supply and connect the heater the electrical cable to the 10A fused spur. The fused spur must not be directly above the heater but should be accessible after completion of the installation.

3. Note if a room thermostat is to be fitted refer to page 7 before continuing.

4. Plug the electrical cable into the heater.

5. Position the heater ensuring that the electrical cable is not snagged.

6. Fix the heater to the plinth

Heating

Before switching the heater on for the first time ensure the fascia grille is free from obstruction.

Ensure the fused spur is switch **ON**. Set the thermostat (If fitted) to maximum.

Set the upper fan switch and the middle 600W switch to the **ON** position. If a higher heat setting is required then set the bottom 1200W switch to the **ON** position.

Set the thermostat (If fitted) to its required setting.

Air Circulation (Summer Use)

The heater may be used in fan only mode by setting the upper switch to the **ON** position, both other switches must be **OFF**.

Fault Finding

1. The fan does not run/ no heat output

- Check the power supply is switched ON.
- Check the fuse in the fused spur.
- Check the switches on fan switch is in the on position on the heater

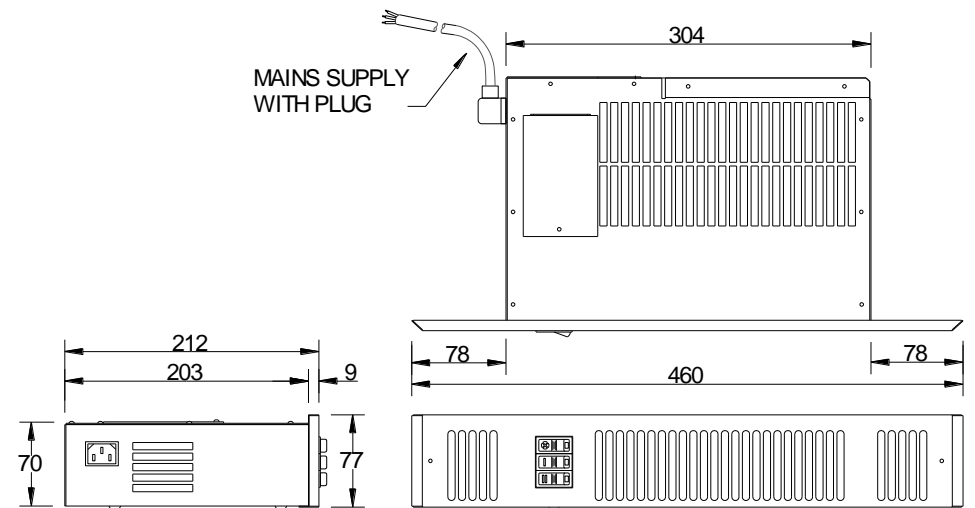

2. If the overheat protection has activated, manually reset as follows.

- Switch the power supply **OFF** at the fused spur
- Wait five minutes for the overheat cut out switch to reset
- Switch the power supply back **ON** at the fused spur

This Space Saver is covered by a free 5-year parts and labour guarantee.

In the event of difficulty, please contact us on 01245 324560.
